

Safety Enterprise, Inc.

Richard Fesler has various certifications to conduct Safety, Health and Disaster Management Training.

Richard is an Authorized OSHA Outreach Instructor.

The Occupational Safety and Health Administration (OSHA) Outreach Training Program was established to provide training for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces. The program also provides information regarding workers' rights, employer responsibilities, and how to file a complaint. OSHA authorizes qualified trainers, who complete the 4-day train-the-trainer courses, to conduct the 10-hour and 30-hour Safety and Health classes.

The 10-hour class is intended for entry level workers, while the 30-hour class is more appropriate for workers with some safety responsibility.
